## Certificate III in Early Childhood Education and Care

### COURSE OVERVIEW

- This qualification addresses the skills and knowledge required to provide care for individuals and groups of children, and to plan activities facilitating their leisure and play, enabling them to achieve their developmental outcomes. This qualification reflects the role of workers in a range of early childhood education settings who work within the requirements of the

Education and Care Services National Regulations and the National Quality Standard.

- The course is fully accredited nationally recognised training.
- Under national education and care regulations, to work in this industry a person must be studying toward or hold this qualification at a minimum.

**AUSTRALIAN COLLEGE OF SKILLS AND EDUCATION**

## COURSE ENTRY REQUIREMENTS

- There are no formal entry requirements for this course, however it is expected that students have good communication skills and a genuine interest in working with children and their development.
- Be aware that working in this industry and with children will require you to obtain a National Police Check and a NSW Working with Children check prior to commencing employment. Other States and Territories outside NSW have similar guidelines and if you move around Australia it is advisable to check with local licensing authorities.
- Be aware also that most care facilities and education centres will require that workers and educators are physically fit and emotionally capable of working in the environment. This also means that workers do not have a pre-existing medical condition or a communicable disease that may put the health and safety of the children and other staff at risk.

## DURATION & STRUCTURE

- The course combines face to face classroom based learning, workplace based practical placement and assessment and self paced study and assessment. The program runs on a rotating calendar cycle, with students able to commence study at regular intervals and take up to 12 months to complete the qualification.
- Weekly sessions consist of 2 days face to face in a classroom based environment learning the underpinning theoretical components and required knowledge. The remaining 3 days a week are spent doing workplace based placement in a facility to begin learning and consolidating the practical competencies.
- Students are required to attend a minimum of 12 weeks full time and complete 120 hours of practical placement and assessment.
